Sep. 2021-
Nov. 2021

Alkemy's React Acceleration Program
I completed Alkemy's React Acceleration Program, which consisted in the development of a website and CMS for the ONG "Somos Más". The project was done with a team of eight members and we used agile methodologies (SCRUM), and Jira + Bitbucket for the code management. The project was built with React, Redux, Bootstrap and tested with Jest and React Testing Library. My certificate of completion can be found on my Linkedin page.

SKILLS

HTML + CSS + JS	Nodejs	Git, GitLab
React + Typescript	Express	Jira
Redux	MongoDB	Wordpress, Shopify
Sass, Bootstrap	SQL	Testing (Jest, Cypress)
